## PROFESSIONAL DISCLOSURE AND INFORMED CONSENT FOR TREATMENT

Ranch Hand Rescue's Counseling Center is committed to providing quality services to our clients and to give you the information necessary to be informed about the therapeutic process. *If you have questions regarding anything on this form, please discuss them with your therapist before signing.*

**THE COUNSELING PROCESS-** Counseling at Ranch Hand Rescue will be conducted by qualified licensed professional counselors who are contracted by the organization and will be rendered in a professional manner consistent with accepted legal and ethical standards. Counseling is a very personal process and requires active effort on your part. You and/or your child's counseling goals and an individual treatment plan will be determined together with your therapist. Your therapist uses the following treatment approaches depending on your need and preferences:

- Equine and Animal Assisted Counseling
- Trauma-Focused Cognitive Behavioral Therapy
- Cognitive Behavioral Therapy
- Eye Movement Desensitization and Reprocessing (EMDR)
- Addictions Model
- Christian Counseling
- Play Therapy, Art Therapy, Nature Therapy

**THE COUNSELING RELATIONSHIP-** The relationship that exists between a therapist and a client is professional rather than social. Therefore, contact with your therapist will only take place in the context of the provision of a professional service. If your therapist sees you in public, she/he will protect your confidentiality by acknowledging you only if you approach your therapist first. Your therapist is a consultant and resource professional. His/her suggestions may be freely accepted or rejected by you and therefore the decisions made during and after therapy are the responsibility of the client.

In the case of child therapy, the parent(s)/caregiver(s) of the child play an instrumental role in healing for the child. We encourage you to discuss with your child's therapist any approach, technique or practice with which you have questions, concerns, or need clarification. Your child's therapist will meet with you regularly to discuss your child's progress, offer suggestions for parenting or address concerns.

Ranch Hand Rescue's Counseling Center **does not provide 24 hour crisis counseling**. Should you experience an emergency situation necessitating immediate mental health attention, you should call 911 or go to an emergency room for assistance.

**EFFECTS OF COUNSELING-** At any time, you may initiate a discussion of possible positive or negative effects of entering, not entering, continuing, or discontinuing counseling. While benefits are expected from counseling, specific results are not guaranteed. It is extremely important and helpful for you to inform your therapist, as soon as possible, of new problems or information that may have a positive or negative impact on your family and/or your child. As a client, you are in complete control and

may end you or your child's counseling at any time. **We do ask that you agree to participate in a termination session for you and or your child.**

\_\_\_\_\_ I understand the counseling process, relationship, and the possible effects.

**PROFESSIONAL RECORDS-** Records are the property of RHR and maintained by each contracted therapist. Except in unusual circumstances, you have the right to a copy of your/your child's record. Because these are professional records, I recommend that you initially review them with your therapist, or have them forwarded to another mental health professional to discuss the contents. If your request for access to your records is denied by your therapist, you have a right to have that decision reviewed by another mental health professional. Records are retained for 5 years after termination of counseling for adults and 5 years after a child's 18<sup>th</sup> birthday. Upon death, incapacity, or termination of the therapist's practice, counseling records will be transferred to another contracted therapist with Ranch Hand Rescue.

**CONFIDENTIALITY-** Confidentiality is described as keeping private the information shared between a client and his/her therapist.
